SUMMARY

E-commerce and marketplace operations professional with 9+ years running end-to-end US operations across eBay, Walmart, Etsy and Amazon Seller Central. I combine day-to-day marketplace ownership — catalog and listing management, competitor pricing, order operations and performance reporting — with production Python automation for scraping, data pipelines and scheduled reporting. Led a team of five and lifted company profit by 20% in one quarter. Open to remote full-time, part-time or contract roles; flexible for US/EU hours.

CORE SKILLS

Marketplace ops	eBay, Walmart, Etsy, Amazon Seller Central; store & catalog management, listing optimization, competitor pricing, order operations, account health
Automation	Python, Selenium, web scraping, REST APIs, SQLite, data cleaning, scheduling (Task Scheduler / GitHub Actions), retries, logging, Telegram alerts
Reporting	Excel / Google Sheets, KPI & sales reporting, competitor & trend analysis, dashboards
Growth	SEO/SEM, Google Ads, product content & copy, WordPress, Figma, Adobe Photoshop, team leadership

SELECTED RESULTS

- Led cross-platform marketing and listing optimization that lifted company profit by 20% in a single quarter; supervised and mentored a team of 5+.
- Built a production AI job automation platform: 1,000+ openings from 16 sources, deduplication and relevance scoring (~90% noise filtered), LLM cover letters, Selenium ATS submission, scheduled runs with SQLite history and Telegram proof.
- Closed a two-container export deal within three months; earlier e-commerce marketing strategy generated tens of millions of IDR in the first months.
